Walk of Peace

From battlefields to peace: a cross-border path of memory and cooperation. A Transnational Cultural Route from War Memory to European Cooperation.

4

Started from a Slovenian project developed by Fundacija Poti miru v Posočju, the Walk of Peace links over 300 WWI cultural sites, monuments, museums and cemeteries across 500 km from the Alps to the Adriatic, transforming former battlefields along the Soča/ Isonzo and Piave into a shared landscape of remembrance, reflection and peace, promoting cooperation and friendship in Europe. It has now spread further to other European countries.
